Chapter 1 Summary: 1

In the opening chapter of "How To Hang A Witch" by Adriana Mather, we meet Samantha "Sam" Mather, who finds comfort in a cozy breakfast with her father, who is recovering from a coma. As they enjoy steaming croissants and hot cocoa, the relaxed atmosphere shifts when a ghostly figure, a little girl in an old-fashioned dress, appears to Sam but is invisible to everyone else at the table. This moment resonates with Sam's hidden past and her lingering fears, especially concerning her stepmother, Vivian, who tried to manipulate and harm her and her friends through magic.

The warmth of breakfast contrasts sharply with Sam's internal struggle as she remembers the traumatic events from the previous fall when her stepmother was active in witchcraft. Sam's father, though cheerful and engaged, remains oblivious to the depth of Sam's experiences, including her seeing Elijah, a beautiful ghost from the 1600s, which she feels compelled to hide from him.

As Sam prepares for school, the dynamics with her peers, especially the "Descendants"—a group descended from accused Salem witches—are complicated. They carry a weight of history and gossip as Sam grapples with her identity as the descendant of Cotton Mather, the Puritan minister responsible for the witch trials. Her social position is delicate; while she's moving away from being the "cursed girl," she remains aware of the hushed

whispers surrounding her ability to see the dead.

At school, the excitement builds around the upcoming Spring Fling dance, which features a Titanic theme, triggering memories of loss and uncertainty for Sam as she navigates the complex relationships with her old friends, who are eager to pull her back into the world of magic and witchcraft. Alice, one of the Descendants, insists that Sam's involvement is essential, hinting at an ominous message she received that suggests darkness may be looming.

The chapter weaves together themes of trauma, identity, the burdens of ancestry, and the struggle to reclaim one's life from a past filled with darkness. Sam is caught between the desire to move forward—finding solace in simple moments with her father and best friend Jaxon—and the haunting memories of her past, revealing that she is yet to escape the shadows cast by her stepmother's actions. The cliffhanger of noticing a mysterious painting in her home marks the deeper connection to her family's haunted history and foreshadows potential supernatural elements that will unfold as she faces her fears and responsibilities.

Chapter 2 Summary: 2

In Chapter 2 of "How To Hang A Witch" by Adriana Mather, we dive deeper into the world of Samantha "Sam" Mather as she navigates unsettling dreams, the weight of her family's past, and her connection to the supernatural. Sam's chapter begins with her vivid dream aboard a luxurious ship reminiscent of the Titanic, filled with old-fashioned figures and the eerie sensation that something important eludes her grasp. As she awakens, it becomes clear that her experience isn't just a typical dream; it might be linked to her ability to see spirits, a gift that she struggles to manage.

Back in the waking world, Jaxon enters Sam's room to check on her, noticing her distress from the dream. He offers his friendship, highlighting his caring nature, but Sam brushes off the invitation to talk more about it. At school, their literature class focuses on the Titanic, sparking her uneasy memories and intentions to distance herself from anything related to it. This chapter builds tension as it hints that important themes of grief, secrets, and supernatural warnings will persist throughout Sam's journey.

Soon, Sam encounters supernatural incidents in reality, such as running into Dillon, who is costumed for an upcoming dance, and later seeing a mysterious man in an old-fashioned suit near her lunch spot, which sends her into a panic. The chapter progresses with Sam's interactions with her classmates, particularly Blair, who brings up her own family's past and adds

to the pressure surrounding Sam's abilities. The revelations are compounded when Sam unexpectedly meets Ada, a spirit representing a tragic part of the Titanic's history.

The chapter also explores Sam's reluctance to embrace her gifts. She and her friends, the Descendants, decide to conduct a spell to ward off spirits, hoping to create a sense of normalcy amidst the chaos they face. However, the spell leads to unexpected results, including the appearance of a ghostly presence linked to her Titanic history assignment. When the spell inadvertently attracts spirits rather than keeping them at bay, Sam is left grappling with the consequences of her powers—a theme that underscores her struggle between embracing and repelling her abilities.

As she sits with her friends in a secret study filled with witchcraft artifacts, they discuss the implications and dangers of their spellcasting. Sam is torn between her desire to maintain control over her life and the inevitable connection to her family's dark legacy tied to witchcraft and the tragic events of the Titanic. The arrival of new characters and spirits, combined with the tension between her friendships and her fears, sets the stage for a rich exploration of magic, responsibility, and the lingering shadows of the past.

The chapter ends with a confrontation with a mysterious older woman, who warns Sam that she has begun something dangerous with her spell and that they must confront it. The woman's cryptic message about the potential for
