Chapter 1 Summary: Pippi Comes to Villekulla

At the edge of a small Swedish town, in an overgrown orchard, lives the extraordinary Pippi Longstocking, a nine-year-old girl who delights in her independence. Orphaned since a baby, Pippi enjoys her freedom to the fullest, free from the constraints of bedtimes and unpleasant medicine. She fondly remembers her father, a ship's captain she believes is alive and reigning as a Cannibal King on a desert island, while her mother is an angel watching over her from Heaven.

Pippi settles into Villekulla Cottage, a gift from her father, and embarks on her new adventure. With her cheeky monkey, Mr. Nelson, accompanying her, she brings along a suitcase filled with gold coins. Pippi's incredible strength is highlighted - she could lift a horse if she wanted, which she does after purchasing one with her gold. This horse lives on her front porch, highlighting Pippi's whimsical and unconventional ways.

In the neighboring house live Tommy and Annika, two well-behaved children who yearn for a playmate. They've often wondered about the empty cottage next door, but on the beautiful day Pippi arrives, they happen to be away visiting their grandmother. However, fate intervenes and soon Pippi catches their eye as she walks back and forth down the street, engaging them with her eccentric personality and colorful appearance. Her bright carrot-colored braids and mismatched stockings make her an unforgettable

sight, especially with Mr. Nelson perched on her shoulder.

When Tommy and Annika finally meet Pippi, they're mesmerized by her quirky demeanor and infectious spirit. Though Tommy is skeptical of her grand tales of adventure, Pippi's charm quickly wins them over. She invites them to her home, where they learn about her unique lifestyle—she decides her own bedtime, and her house is a chaotic but delightful mess.

Pippi proves to be a whirlwind of fun and creativity, preparing pancakes in her own delightful style, complete with splattering batter and humorous anecdotes. The children enjoy her antics and are treated to gifts from her collection of treasures brought from her travels. As they share these moments, it's clear that Pippi is not just an unusual girl, but a beacon of adventure who will change Tommy and Annika's lives forever.

Amidst the laughter and chaos, themes of independence, imagination, and the joy of childhood resonate throughout Pippi's introduction. Her tales of fantasy and mischief highlight both the freedom of being a child and the thrill of unexpected friendship, setting the stage for many more delightful adventures to come.

As they rush to get ready, their enthusiasm is palpable, and they slide down the banister, demanding hot chocolate for breakfast. Pippi, meanwhile, is busy baking ginger-snaps in her uniquely playful style, rolling dough on the floor while chatting with her pet monkey, Mr. Nelson.

When Tommy and Annika arrive, they are greeted with a cloud of flour as Pippi shakes hands. She cheerfully explains her extraordinary identity as a "turnupstuffer," someone who finds all sorts of wonderful treasures if only they look closely enough. This whimsical role captures Tommy and Annika's imagination, and they enthusiastically want to join her on this charming adventure.

The trio sets off on their quest around the neighborhood, with Pippi leading the way, animatedly recounting past escapades, including an intriguing find in the jungles of Borneo. Their hunt takes a mischievous turn when they encounter a group of five boys bullying a smaller boy named Willie. Pippi, unfazed, intervenes, confronting the bullies and demonstrating her strength by lifting and playfully tossing them as if they were toys. Chapter 4 Summary: Pippi Starts School

In Chapter 4 of "Pippi Longstocking," Pippi decides to start school, a decision influenced by her friends Tommy and Annika, who regularly head off to school each morning. While they follow a routine, Pippi spends her mornings doing whimsical activities, such as riding her horse and performing somersaults. Tommy and Annika often wish that Pippi could join them, so they try to convince her of the joys of school life. After some playful persuasion, Pippi whimsically decides to enroll, motivated by the allure of Christmas holidays.

The next day, Pippi makes a striking entrance at school, riding her horse and crashing into the classroom. Her exuberant personality immediately captures everyone's attention as she cheerfully asks if she's on time for "pluttification" (a playful misunderstanding of a school subject). The kind-hearted teacher, already familiar with Pippi's reputation, welcomes her warmly, but soon finds Pippi's unconventional behavior challenging.

Pippi's responses to the teacher's questions reveal her lack of understanding about typical school norms. When asked basic arithmetic questions, she turns them into humorous and nonsensical dialogues, often veering off-topic to share wild tales about her adventures. The teacher attempts to redirect Pippi's attention, first to reading and then to drawing, but Pippi proves to be more interested in elaborate stories than schoolwork.

Realizing that Pippi's antics are disruptive, the teacher eventually pulls her aside. Pippi expresses her confusion about the school's structure, explaining how her unique upbringing has left her unaware of proper behavior. The teacher softens, recognizing Pippi's challenges, and suggests she might return to school in the future when she's older.

Before leaving, Pippi gifts the teacher a gold chain, insisting she accept it. As Pippi rides away, she regales the other children with stories about schools in Argentina, claiming they are a paradise of sweets without lessons, leaving them bewildered yet entertained. The chapter concludes with Pippi bursting out of the schoolyard with laughter, embodying her carefree spirit and ensuring that her skirmish with formal education is anything but ordinary. Through humor and imagination, the themes of individuality and the clash between societal norms and personal freedom are vividly highlighted in this delightful chapter.

The setting is idyllic, with the charming cottage situated at the edge of town and surrounded by delightful scenery that invites the townspeople for strolls. Their peaceful pear-picking takes a whimsical turn when a girl approaches them, looking for her father. Pippi engages in playful and absurd banter, claiming the girl's father might have ears so big they could be used as a raincoat, which sparks a lively conversation full of Pippi's colorful imagination.

As the girl listens in bewilderment, Pippi spins an outrageous tale about a Chinese man named Hai Shang who had a ridiculously fussy child named Peter. The story humorously details Peter's refusal to eat bird's nest, leading to his demise from contrariness. Pippi's tall tales are a blend of humor and absurdity, leaving the girl both entertained and confused. Eventually, she leaves, and Pippi reflects on how simple people can be for believing such outlandish stories.

Turning their attention back to the surroundings, Pippi suggests they climb a nearby oak tree. While Tommy eagerly jumps down from the gate, Annika hesitates. But once they're up the tree, they discover it has a hollow trunk, where they plan a delightful tea party complete with cups and buns that

Tommy and Annika can hardly contain their enthusiasm and quickly gather money from their father to join in the fun. They rush to invite their adventurous friend Pippi, who is busy braiding her horse's tail and clumsily questions what a "sarcus" even is. Once they explain, Pippi enthusiastically decides to go, confident in her wealth and charm.

As the show starts, Pippi is captivated by the sights and sounds, but her attention quickly turns into mischief.

When the ringmaster introduces several acts, Pippi can't resist the urge to join in. She leaps onto the back of a horse and nearly disrupts the performance, much to the disbelief of the audience. They notice a light on inside and decide to ask for a sandwich, not realizing how resourceful Pippi is.

Inside, Pippi is amusingly counting her gold coins, struggling with numbers but enjoying the challenge. When the tramps enter, they are surprised to see a small girl alone with a fortune. The thieves decide to wait until Pippi and Mr. Nelson are asleep before sneaking in to steal her money. Little do they know, Pippi is not one to back down easily. After a while, they find the back door isn't locked and sneak in, only to discover Pippi's unique sleeping position with her head at the foot of the bed.

In a twist of fate, Pippi outsmarts them as she nonchalantly talks with them while they attempt to figure out their next move. When they demand to know where her money is, she innocently tells them it's in a suitcase.

The postman, amused but slightly confused by her insistence that he deliver her own letter, obliges, and Pippi is ecstatic to receive her first-ever letter, filled with misspellings yet brimming with charm.

Delighted, Pippi treasures the letter and reflects on its similarities to Tommy's note. Tommy and Annika point out the numerous spelling mistakes, and when they mention a school outing, Pippi mischievously muses about the restrictions placed on her by not attending school. The anticipation of their outing piques her interest, and she longs to join them in their fun.

The scene shifts to Tommy and Annika at school, where the warm weather makes it difficult for them to focus on lessons. Suddenly, Pippi surprises them by climbing onto a branch of the birch tree outside the classroom, engaging in lighthearted banter with the teacher and the students. Pippi's whimsical nature shines through as she jokingly suggests that perhaps a little "pluttification" (multiplication) could be thrown out the window in favor of "jollification."

Her antics not only disrupt the lesson but also bring joy to her friends, as she recounts fanciful tales of a school in Australia where children's laughter and play are the primary focus of education. The teacher, entertained yet perplexed by Pippi's unconventional ideas, ultimately agrees that Pippi can join them for the outing, much to Pippi's delight.

With a heart full of excitement, Pippi feels triumphant over the structured rules of school, highlighting her spirited independence and the importance of play and imagination. This chapter beautifully captures themes of friendship, the joys of creativity, and the contrast between structured learning and the freedom of childhood adventure.

On the day of the local fair, excitement buzzes through the little town as vendors set up colorful stalls, and a lively atmosphere fills the air. Children, particularly Annika and Tommy, are thrilled, but they prefer to attend the fair with their adventurous friend Pippi Longstocking rather than their mother. At the fair, the trio visits various stalls, where Pippi generously buys Tommy a peaked cap and Annika a lovely red silk scarf. They follow the sounds of joy and laughter to the fairgrounds, where Pippi tries her hand at shooting. Her unexpected talent wows everyone, as she is able to hit the targets perfectly, leaving the crowd astonished.

They then rush to the merry-go-round, where Pippi jovially hops onto a horse, often outdoing the ordinary by standing on her head. They enjoy the thrill of the ride, with Pippi adding her whimsical flair by wearing her grandiose dress as she spins in delight. However, after a prolonged session, Pippi decides to share the joy and hands out her leftover tickets to other children waiting for a turn.

Chapter 22 Summary: Pippi Cheers up Auntie

Laura

In Chapter 22 of "Pippi Longstocking," we find Pippi wandering in her garden, waiting for her friends Tommy and Annika. When she discovers them in their arbour with their mother and a visiting old lady named Auntie Laura, she feels a sudden urge to brighten the atmosphere with her signature exuberance. Despite Annika's worried attempt to curb Pippi's chatty nature, claiming it might upset adults like her mother once did, Pippi is determined to cheer Auntie Laura up.

With her playful wit, Pippi makes a grand entrance, jokingly complimenting Auntie Laura and grabbing a glass of orange juice. Though Mrs. Settergreen expresses a desire for the children to be "seen and not heard," Pippi quickly dismantles that idea, asserting that it's perfectly reasonable for ears to get a workout along with the eyes. As the conversation develops, Auntie Laura reveals her own worries about her health, specifically her nerves, which prompts Pippi to share a wildly exaggerated and comical story about her own grandmother's nervousness.

In typical Pippi fashion, she suggests a ludicrous remedy—a dose of fox poison that calmed her grandmother for days. While Tommy tries to clarify that Pippi is just embellishing her tales, Auntie Laura remains engaged, leading Pippi to further stories about peculiar characters she has met on her

Pippi grabs her suitcase filled with gold coins, convinced that a squeazle must be something valuable. With Tommy and Annika, she jumps on her horse and rides into town, creating a ruckus that attracts the attention of other children, who love Pippi. They ask if squeazles are edible, to which Pippi responds enthusiastically, affirming their deliciousness despite never having seen one.

Their first stop is a sweet shop, but the clerk has no idea what a squeazle is, which frustrates Pippi. Undeterred, they continue their quest, visiting an ironmonger's shop where Pippi humorously requests a squeazle, only to be handed a rake instead. Using a ladder to reach them on the second floor, she captivates them with her unpredictable costumes and playful antics, managing to keep their spirits high even as they lie sick.

The whole town turns out to celebrate, with a brass band playing and a photographer attempting to capture the moment. Pippi, bursting with excitement, joyfully leaps into her father's arms, and they share a whimsical moment of tossing each other into the air—much to the photographer's frustration.

Tommy and Annika, Pippi's friends, approach, looking weak and pale, still recovering from their illness. Pippi, unfazed, insists on greeting her old seafaring friends on board the ship, and she delights in the sights and sounds of a vessel that has ventured from afar. The sailors receive enthusiastic hugs from Pippi, and she playfully carries her father on her shoulders all the way back to Villekulla Cottage, delighting the crowd who cheers for the king.

As they settle down after a hearty meal, Tommy and Annika's spirits are low, overshadowed by the thought of Pippi embarking on another adventure, possibly leaving them behind for a long time. In contrast, Pippi is brimming with enthusiasm, dreaming about future escapades on Canny Canny Island, where she imagines basking on the beach and interacting with island children. Her carefree attitude doesn't settle well with her friends, who are filled with anxiety over the possibility of Pippi leaving them.

The mood shifts dramatically when Pippi reveals that she's arranged for Tommy and Annika to join her on the adventure. Elation fills the room as the children burst into jubilation, dancing around and enacting their excitement, while Mr. Nelson the monkey tries to keep up with the festivities.

As Pippi prepares to embark on the adventure, the reactions from the townspeople and especially the children's parents are mixed—some express concern, while others recognize that Pippi has always been a good influence on them. Mrs. Settergreen remains supportive, emphasizing the importance of the change of scenery for her children's health.

On a chilly evening, Tommy and Annika finally say goodbye to their friends and families while boarding the Hoppetossa, feeling both happy and a bit sad. As the ship sails away into the night, they experience a blend of emotions, knowing they're embarking on a once-in-a-lifetime adventure. With the wind in their sails and the stars above, the children are excited for the unknown ahead, with Annika even considering a future as a pirate.

After breakfasting on freshly gathered coconuts, breadfruit, and bananas, the excitement builds as the children decide to explore the island's caves, which are both thrilling and perilous.

Meanwhile, two rough men, Jim and Buck, who are out to steal pearls from the island's children, arrive on a small steamer, taking advantage of the absence of Captain Longstocking and the other adults. They plan to sneak into the village, believing only women and children to be present. Spying Pippi and her friends in the cave, they decide to mask their intentions with friendliness.

However, Pippi, with her characteristic wit and humor, engages them, concocting outrageous tales about her grandfather and wooden legs. Jim and Buck, eager to lure Pippi and the others out for a swim, become increasingly agitated as the children remain inside the cave. Buck tries to swim but panics upon seeing a shark, attributing it to Pippi's earlier warnings, while Pippi smugly points out that she speaks the truth more often than not.

However, the good times are tinged with a sense of impending change as the rainy season approaches, prompting Pippi to suggest a return to Villekulla Cottage.

The bittersweet farewell occurs when Pippi, Tommy, and Annika leave Canny Canny Island. The Canny Cannibal children, heartbroken yet grateful for the memorable times, gift them garlands of flowers, and a somber song echoes across the water as they sail away. Captain Longstocking stands proudly but sadly on the shore, blowing his nose as he waves goodbye.
